

Neelum T. Aggarwal, MD

Dr. Neelum T. Aggarwal, is an internationally renowned physician, scientist, author and expert in the field of longevity and aging and Alzheimer's Disease. Dr. Aggarwal is the Clinical Core Co-Leader of the federally funded, Rush Alzheimer's Disease Center in Chicago and was elected to serve on the Steering Committee of the Alzheimer's Disease Cooperative Study Group (ADCS) - a federally funded group responsible for carrying out large scale clinical trials on aging and Alzheimer's disease. Because of her expertise in minority health and wellness issues, she was asked to serve on the Minority Recruitment Core of the ADCS and has lectured extensively on health and wellness topics, nationally and internationally, to both the scientific and non scientific community. She is an Associate Professor of Neurological Sciences at Rush University Medical Center in Chicago, Illinois.

Dr. Aggarwal is asked regularly to provide commentary on her own research and articles of interest as they pertain to longevity, aging and Alzheimer's disease, and her work and activities have been featured on the local television networks in Chicago. She is a contributing editor to Medpedia- the online worldwide platform that seeks to advance knowledge about health and medicine, a frequent guest blogger on Alzheimer's disease, women's health and minority health for organizations such as the Alzheimer's Disease Cooperative Study group (www.adcs.org), Advancing Women's Health Collaborative project (www.advancingwomenshealth.org) and the Canadian US Business Council of Chicago (www.canadianclubofchicago.org). Dr. Aggarwal is a member of the American Academy of Neurology, Councilor for the Women Section of the Academy of Neurology and was recently elected to the Board of the American Medical Woman's Association.

Dr. Aggarwal is a consultant to a variety of profit and non -profit organizations, participating on multiple advisory boards and think tanks drawing upon her diverse skill set as a clinician researcher.
